	Systems with at least two local origination /leased access channels <sup>2</sup>	9 <sup>1</sup>	10
	Video – Minimum number video channels/networks	20	16
	Maximum number video channels/networks	163	186
	Audio – Minimum number audio channels/networks	0	0
	Maximum number audio channels/networks	46	45

<sup>1</sup> The number of cable systems in the market and the number of systems with local origination/leased access channels (one or at least two) was incorrectly calculated in the version of this chart in Media General's comments in the 2001 Proceeding.

<sup>2</sup> The count of systems offering local origination and leased access cable channels is underinclusive. If a program or industry guide specifically referred to "local origination" or "leased access," such references were logged under tallies for those generic categories in the "Local/Regional" section at the beginning of each convergence market's cable chart. Many locally originated cable programs, however, were listed by their specific titles in the program guides consulted by Media General's researchers. These programs were then listed in the cable charts under the program titles. Nonetheless, these shows usually represent "local origination" or "leased access" programming, even though they were charted separately and not included in the totals listed above.

<sup>1</sup> Bay, Calhoun, Franklin, Gulf, Holmes, Jackson, Liberty, Walton, and Washington Counties, FL.

<sup>2</sup> The number of Non-Class A LPTV new station applications decreased by one because the application proposed a community of license located outside of the DMA and therefore, should have been omitted from the same chart in Media General's comments in the 2001 Proceeding.

<sup>3</sup> According to FCC Form 346 (Section III, Question 4) on file with the FCC.

<sup>4</sup> Pending construction permit application to change community of license to Fort Walton Beach, FL, and therefore, change markets.
